fee includes  
breaks, lunch  
and all  
workshop  
materials

Limited  
space is  
available, so  
register  
**TODAY!**

The training objectives will be to:

- assist educational providers as they strive towards an evocative self-evaluation and on-site evaluation experience;
- provide an opportunity for participants to gain a better understanding of the Council's accreditation standards and procedures;
- orient participants to the philosophy that underpins accreditation;
- equip participants with the skills and expertise to undertake the accreditation process effectively e.g. assist participants with interpreting the accreditation standards for use in conducting the self-evaluation and preparing the written documentation; successfully prepare a Self-Evaluation Report; and
- provide an environment for networking and sharing of experiences with other providers that will be pursuing accreditation.
